DANNY LAU  
[dannylau@us.yangming.com](mailto:dannylau@us.yangming.com)

**10. Total amount of hazardous wasted shipped:**

<b>Amount shipped as the exporter:</b>	2.497,81 Tonnes
<b>Amount recived by the final recovery facility:</b>	3.404,09 Tonnes

**11. Number of shipments pursuant to this notification:**

**As the exporter: 106**  
**As the final recovery facility: 145**

The noticed difference in quantities between the exporter and the recovery facility is due to movements which were shipped in December 2011 and didn't reach Azor's facilities till January 2012.

The company operates as a mere export, not as a producer, so we think that is exempted from submitting information relating to part 5 of the required data (262.87(a) 40 CFR), in which the company is supposed to present a description of the efforts undertaking during the year and another one to describe the changes in volume and toxicity of the waste actually achieve during the year.

I certify under penalty of law that I have personally examined and am familiar with the information submitted in this and all attached documents, and that based on my inquiry of those individuals immediately responsible for obtaining the information, I believe that the submitted information is true, accurate, and complete. I am aware that there are significant penalties for submitting false information including the possibility of fine and imprisonment.

February, 2013

**RE: Excel File Template - Exporter of Spent Lead Acid Batteries (Evervalue USA)**

Rodríguez Buche, Íñigo [irodriguez@rioammo.com]

**Sent:** Friday, March 01, 2013 11:47 AM**To:** Nelson, Scott**Attachments:** Evervalue Annual Report 2012.pdf (13 KB)

Dear Mr. Nelson.

Please find attached the report for Evervalue USA. This is what I have gotten from the responsible in our HQ in Spain. Let me know if that's the information requested. If not, please let me know what else is needed.

I will mail a signed hard copy

Thanks,

Íñigo Rodríguez
